Project Description

This is the official download site for the latest packages originating from the [MinGW.org Project](#)

MinGW is a native Windows port of the GNU Compiler Collection (GCC), with freely distributable import libraries and header files for building native Windows applications; includes extensions to the MSVC runtime to support C99 functionality. Although (currently) offering only a 32-bit compiler suite, all of MinGW's software will execute on the 64bit Windows platforms.

MinGW is a registered trademark of [Software in the Public Interest Inc.](#), registration number 86017856; this trademark has been registered on behalf of the [MinGW.org Project](#), and its use by any other project is unauthorized.
